What makes this 1,636± square foot, two-bedroom, two-full-bath home unique is its location and size, with 1.54± acres of land giving the homeowner/investor one of the larger properties available in this highly sought-after area of Mena. For anyone looking to expand, the corner acreage features two open spaces large enough for additional shops or homes. MORE ABOUT 806 SAMPSON AVENUE

A beautiful, bright sunroom overlooks the custom in-ground pool. Family and guests can access it through the French doors of the sunroom or the oversized laundry and bonus room that both lead to a covered deck, which serves as an extension of your living space and where you can sit under fans to cool off and relax—a delightful place to retreat and unwind. The 14' x 28' pool has a concrete patio area, a vinyl-sided pool equipment shed, and is fenced in for safety and privacy. Just outside the fence are two buildings to serve as storage/creative space or that could be used as a business. A 16'x24' storage shed in the backyard offers concrete floors, overhangs, and 100 amp electrical service. In the side yard, and accessible by way of a circle drive, is a 30' x 40' red iron shop with a roll-up door and side entrance off the covered 20' x 30' overhang. It is plumbed for a bathroom and has 200 amp electric service of its own. The circle drive provides access from both Sampson Avenue and Mountain View Drive. With a change in zoning, you could establish a business in the shop, which includes a bathroom, concrete floors, and room to create or store equipment, bikes, or vehicles. Expand the existing garden spot, use it as an open lawn, or use the additional acreage for building income-producing units.
