Was the project created by the conversion of an existing building(s) into a PUD? Yes No If yes, date of conversion:							
Does the project contain any multi-dwelling units? Yes No Data Sources:							
Are the units, common elements and recreation facilities complete? Yes No If no, describe the status of completion.							
Describe common elements and recreational facilities:							

CERTIFICATIONS AND LIMITING CONDITIONS

This report form is designed to report an appraisal of a parcel of land which may have some minor improvements but is not considered to be an "improved site". All improvements are considered to be of relatively minor value impact on the overall value of the site. This report is not designed to report on an "improved site" where significant value is derived from the improvements. This appraisal report form many be used for single family, multi-family sites and may be included within a PUD development. This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions and certifications. Modifications, additions, or deletions to the intended user, intended user, definitions of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material altercations to this appraisal report, such as those required by law or those related to the appraiser's continuing educations or membership in an appraisal organizations are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the subject site and any limited improvements, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research verify and analyze date from reliable public and/or private sources, and (5) report his or her analysis, opinions and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this report is the lender/client identified within the appraisal report.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and passing of title from the seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source OCC, OTS, FRS, & FDIC joint regulations published June 7, 1994)

*Adjustments to the comparables must be made for special or creative concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition of law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect the subject property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no quarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the subject property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties express or implied. The appraiser will not be responsible for any such conditions that do exist or for the engineering or testing that might be required to discover whether such conditions do exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal must not be considered as an environmental assessment of the property.

$\label{problem:eq:approx} \textbf{APPRAISER'S CERTIFICATION:} \quad \text{The Appraiser certifies and agrees that:}$

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a complete visual inspection of the subject site and any limited improvements. I have reported the information in factual and specific terms. I identified and reported deficiencies of the subject site that could affect the utility of the site and its usefulness as a building lot(s).
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Practice that were adopted and promulgated by the Appraisal Standards Board of the Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them unless indicated elsewhere within this report as there are no or very limited improvements and these approaches to value are not deemed necessary for credible results and/or reliable indicators of value for this appraisal assignment.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year to the date of the sales of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining multiple transactions into one reported sale.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I have verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property and comparable sales.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

File No. 100924

Case No.

CERTIFICATION AND LIMITING CONDITIONS (CONTINUED)

- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable source that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with the respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants or the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or attainment of a specific result or occurrence of a specific subsequent event (such as approval of a of a pending mortgage loan application.)
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
- 21. The lender/client may disclose or distribute this appraisal report to: the borrower, another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any or other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media.)
- 22. I am aware that any disclosure of distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Furtther, I am also subject to the provisions of the Uniforms Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrowers, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or bother under the provisions of Title 18, United States Code, Section 1001, et seq., or similar laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is accepted to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards or Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic signature", as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

POSEY PROPERTIES - Appraisal Services COMMENT ADDENDUM

File No. 100924 Case No.

Borrower Jeremi Bryk

Property Address 226 Beethoven St

City San Antonio County Bexar State TX Zip Code 78210-5650

Lender/Client Jeremi Bryk Address 4906 Wurzbach Pkwy Apt 1417, San Antonio, TX 78233

Appraiser Certification Continued:

The appraiser makes it known that an analysis of the historical sales over the past 12 months proved a range of exposure time, at a market price (one that is not inflated and comparative with other properties similar in features and aspects of the subject) to be 1-5 months. This exposure time is similar to the marketing time of comparable listings noted in the neighborhood section of the form report.

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

The intended user of this report is the lender/client. The intended use is to evaluate the property that is the subject of this appraisal for a mortgage refinance transaction, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser.

SOURCE FOR DEFINITION OF MARKET VALUE: The source of the definition of market value is obtained in 12 CFR 34-42(g).

*Highest and Best Use is a Land Use Analysis that concludes maximum productivity of a site "as improved". Tests applied to the site as vacant and as improved are conclusions of Physical Possible Uses, that are Legally Permissible and Economically Feasible resulting in the maximum productivity conclusion. In the Site section the physical and legal characteristics are summarized as are the improvements in the Improvement section of the URAR. The economic conclusion of marketability is made in comparison with the conclusions of central tendencies and Market Conditions reported in the neighborhood section of the URAR. From these separate analyses, Market, Site and Improvement the appraiser concluded that as improved in its current use the subject is in its Highest and Best Use as reported.

The SCOPE of this appraisal encompassed the successful completion, according to the Standards of Professional Practice of a Sales Comparison Approach. The extent of the process of collecting, confirming and reporting the data used in our analysis was sufficient in quantity and reliability to successfully complete our work accurately. Each analysis area contained within discusses in depth the work specifically completed for that section of the appraisal. There were no HYPOTHETICAL CONDITIONS to the scope of our work.

Any questions that you may have must be directed to the lender as I am NOT allowed to talk to an unintended user.

On March 13, 2020, The United States Government delared a "National Emergency Concerning the Novel Coronavirus Disease (COVID-19) Outbreak", which was in effect on the Effective Date of this Appraisal Report. This appraisal report was performed pursuant to the Uniform Standards of Professional Appraisal Practice (USPAP) and was based on information and comparable sales available at that date. At this time, the effect of COVID-19 on the future value of the Subject Property or the value of the real estate market in the area of the Subject Property is unknown and not possible to predict.
